

## Reduce slips and falls

**A**islePro, by SPACE-LINKS, is an innovative solution to slippery aisle floors in spill-prone and wet areas with foot and wheeled traffic. The open-weave grid-rib design traps spilled liquids and powders underneath the surface of the mat, reducing the danger of slips and falls.

For mass merchandisers and grocery stores, AislePro is effective in the produce and floral departments, as well as the detergent, beauty and hair care aisles. It is also great at self-serve food and beverage bars in restaurants and cafeterias. AislePro also makes a great drip mat because it will not become saturated. This makes it an excellent mat where pedestrians gather: at order counters, reception desks, ATMs and ticket lines.

Unlike carpet mats, AislePro is resistant to staining and bunching. It allows shopping carts, wheelchairs and gurneys to pass over with ease. Additionally, AislePro can be easily and thoroughly cleaned on site.

U.S. and international patents pending

**Ideal for use in grocery stores, convenience stores, office buildings, banks and theatres.**
