

# Don't let standing water create a hazard

**W**aterPro, by SPACE-LINKS, is a unique, grid-rib patterned slip-resistant mat for use in areas where standing water poses a hazard. The mats, designed to reduce slips and falls without sacrificing comfort, are suited for use around swimming pools, in shower areas, locker rooms and other areas where bare feet are likely to slip. WaterPro's fungicidal compound's resistance to the growth of athlete's foot fungus and mildew makes it the sanitary solution for wet areas.

U.S. and international patents pending

**Ideal for use around swimming pools, hot tubs, saunas, locker rooms, showers, steam rooms and whirlpools.**
